

Fence Products

Split Rail

Precast concrete Split Rail fence is a maintenance free alternative to wood or PVC. It has a rugged wood grain texture on all sides of the posts and rails. The traditional beauty makes it ideal for farms, homes, golf courses, subdivisions, etc. The fence can be natural gray or prepared with integral color or a penetrating concrete stain. Staining can be done prior to or after installation.

Split Rail fence is available in two and three rail heights. Posts are 5"SQ and rails are 3"W x 6"H x 8'L. There is also an 8"SQ post that works nicely for gates or ends to create a more dramatic look.

Post and Panel

Precast concrete Post and Panel fence is cost effective and low maintenance. It is easily installed and perfect for decorative security, noise reduction, and privacy. The wood grain or stone face is attractive on both sides providing a neighborhood friendly alternative to wood or PVC fencing. It can be manufactured with integral color or stained after installation.

Post and Panel fence is available up to 6' in height. Posts are 5"SQ and panels are 2"W x 12"H x 6'L.
